

ALUMINUM PROFILES

FOR BUILDING 10 SERIES EOAT FRAMES

80/20®

EXTRUDED ALUMINUM PROFILES are ideal for building custom robot end of arm tooling frames. The lightweight anodized aluminum extrusions are available in a variety of different sizes and shapes.

Vibration Proof design, all T-slotted structural extrusions have a drop lock feature - a 2° decline on the T-slot flange. This drop lock acts as a lockwasher in that it spring loads the fastener as it's tightened.

The extrusions are 6105-T5 aluminum, Etch and Clear Anodize #204-R1 with a depth of .0004". Yield strength 35,000 lbs/sq in, tensile strength 38,000 lbs/sq in, conforms to Din 17 615 specifications.

10 SERIES T-SLOT PROFILES

1.00" x 1.00" Square T-Slot Profile 4 Open T-Slots

The EXT1010 profile is compatible with 10 Series Fasteners. The 4 Open T-Slots enable access from any direction and is useful for mounting accessories.
